CIRCLE OF GOD'S PEOPLE

HOW THIS CD CAME TO BE

Music is powerful. Music is a path to an intimate connection with God. People remember more words when they have sung them, than when they simply hear them. This collection of songs is built on these assumptions and more.

In the late 1990s, a number of Camps with Meaning staff, who were passionate about music and its role at camp and frustrated with the difficulty in finding music that supported the Bible teaching, decided it was time to see if we could do something new. A few songs had already been written independently by staff, so it seemed possible.

In the spring of 2000, a small group gathered at Camp Assiniboia ... we took the Bible Curriculum notes, Bibles, guitars, a handful of dreams and invited God to lead us. We proceeded to take a shot at writing music together. Most of the music on this CD is the fruit of that time and yearly gatherings since.

Camps with Meaning singing is usually done with voices, an acoustic guitar or two and maybe a drum. Most of the songs on this CD have this sound. A few of the songs are recorded to reflect the way we initially heard them in our minds ... before they made it to the camp setting. We hope you enjoy the variety.

Finally, more songs have been written than are included on this recording, but they didn't pass the unique test of surviving a summer at camp. We pray that these "passed" for good reason. May they strengthen the circle of God's people forever and ever, amen!
